Princeton

Practice

Intellectual Property

Bret is a registered patent agent with notable experience as a former Patent Examiner for the U.S. Patent & Trademark Office. Having practiced more than 15 years in intellectual property, including a decade as a patent agent, he draws on his background to assist a range of clients across the patenting process, from identifying patentable subject matter and performing due diligence to developing strategic approaches that maximize the patentability of their work or idea.

Bret's technical familiarity extends to a wide variety of disciplines including electrical engineering, mechanical engineering, RF engineering, ASIC/FPGA design, thermal management, consumer goods, athletic products and consumer product design.

Education

- University of Florida, B.S., Physics

Admissions

- U.S. Patent and Trademark Office
