Practice

Intellectual Property

Eamonn is a registered patent attorney with significant experience in preparing and prosecuting patent applications, both domestically and internationally, in chemical, pharmaceutical, biotechnology, and medical device technology areas, as well as counseling clients on the strategic development of their intellectual property rights. His technical expertise extends to small molecule pharmaceuticals, fine chemicals, pharmaceutical excipients, OLEDs, organometallics, catalysts, performance polymers, adhesives and coatings, antibodies, biologic formulations, antibody-drug conjugates, blood coagulation factors, and medical devices.

As a patent litigator, Eamonn has handled ANDA litigation, and various post grant proceedings, including ex parte and inter partes reexaminations, reissue applications, inter partes and post grant reviews, and interferences.
